

## **FREE SUNDAY SEMINAR**

**Homeopathy with Jennifer Ramelmeier, DVM**

**Sunday, March 19, 2017 at 3:00 PM**

Jennifer Ramelmeier, DVM, CVH, will present a short course on Homeopathic first aid for our companion animals. She will explain how homeopathy can quickly treat bumps, bruises, lacerations, bite wounds, and other emergencies.

Dr. Ramelmeier graduated from the Ohio State University School of Veterinary Medicine in 1986. After graduation, she practiced small animal medicine with an emphasis on exotics and pet birds. She also worked for local wildlife rehabilitation groups and nature centers. While satisfied with her chosen profession, she knew something was not right with the allopathic system, as her clients kept coming back increasingly more ill. She met Dr. Christina Chambreau, who mentored her when she took the ANHC course in 2000. She now happily uses Homeopathy, Bachflowers, Reiki, and nutritional management for all species of our animal friends. Her practice is 99% holistic in the treatment of disease.
